

WATER MAIN FLUSHING NOTICE

Each year, New York American Water flushes the water mains in its distribution system. This essential part of our system maintenance program helps us to provide you with high-quality water service. When crews are in the area, customers may experience a drop in water pressure or discolored water. If this happens, simply let your water run until it is clear. Customers are also encouraged to check for discolored water before doing laundry. Any changes due to weather will be posted on our website at newyorkamwater.com (on the home page, click on Alerts Notifications).

NOTE: In observance of Memorial Day and Shavuot, no flushing will be conducted May 25, and May 28 through May 30.

2020 Spring Flushing Schedule

Flushing hours: Monday-Friday, 8 a.m. to 4 p.m.

Community	Start Date	End Date	Community	Start Date	End Date
Atlantic Beach	4/20/2020	4/24/2020	Merrick	4/20/2020	4/24/2020

2019 Annual Water Quality Reports

Learn about the quality of your water

Each year, New York American Water provides its customers with an Annual Water Quality Report to let them know how our water quality stacks up against federal and state drinking water standards. If you are a customer of ours, we encourage you to review this report as it provides details about the source and quality of the drinking water delivered to you in 2019.

View your water quality report online today!

In an effort to be more environmentally responsible, we no longer print our water quality reports. Instead, we have made them available on our website. To view your report online, visit newyorkamwater.com.
