ABOUT THE PROGRAM

At California American Water, we believe fresh, clean water is a resource that should be made available to everyone. That is why we have developed the H₂O Help to Others Program™ (H₂O) to provide assistance to low-income families.

With H₂O, eligible members are determined based on a household's gross yearly income. To see if your household qualifies for H₂O, please refer to the income guidelines that follow. If your household meets the necessary requirements, assistance will be provided to you in the form of a monthly discount on your water charges.

To apply for H₂O, simply fill out the application on the reverse side and mail it to the address listed at the top of the application. For further information about H₂O or your California American Water service, please call us at (888) 237-1333 or visit us on the Web at www.californiaamwater.com.

Give your lawn a day off.

California American Water encourages its customers to adjust their sprinkler timers for big strides in water conservation. Depending on your property, up to 70 percent of your water use is on your outdoor landscape. If you currently water your lawn four days a week, cut it back to three. Your lawn won't mind and you'll be cutting your overall water use by more than 17 percent. Visit www.amwater.com for more water conservation tips.

In a world where everything we touch frequently changes, water is our constant. We've never stopped needing it to drink, to cook, to clean, to live. We'll always need it for sanitation, for fire protection, for watering our lawns and washing our cars.

It's easy to take water for granted. And because so many do, we don't.

We are scientists, environmentalists, innovators, and protectors. We are also residents and employees in the communities we serve. We understand how important, how precious, and how critical water is to daily life.

A Conservation Message from California American Water

California American Water always works to ensure water is available for future generations, so we are committed to conserving our most precious resource. With small changes in water use habits, you can be a part of this commitment while lowering your water bill.

At California American Water we speak your language. Our customer service representatives will be happy to assist you in any language. For assistance, call (888) 237-1333.

Para solicitar la admisión en el programa H₂O, sólo complete la solicitud que figura al reverso y envíela junto a la dirección que figura en la parte superior de la solicitud. Para obtener más información sobre el H₂O o su servicio de California American Water, llámenos al (888) 237-1333 o visite nuestro sitio Web en www.californiaamwater.com.

Dale a Su Césped un Receso

California American Water quiere estimular a sus clientes a que ajusten sus aspersores para conservar el agua. Depende del tamaño de su propiedad, casi 70 por ciento del uso de agua es por el uso afuera. Por favor, irrija el césped un día menos cada semana para reducir el uso del agua complamente por mas de 17 por ciento. Visite el sitio de web www.amwater.com para más información sobre la conservación de agua.

In a world where everything we touch frequently changes, water is our constant. We've never stopped needing it to drink, to cook, to clean, to live. We'll always need it for sanitation, for fire protection, for watering our lawns and washing our cars.

It's easy to take water for granted. And because so many do, we don't.

We are scientists, environmentalists, innovators, and protectors. We are also residents and employees in the communities we serve. We understand how important, how precious, and how critical water is to daily life.

A Conservation Message from California American Water

California American Water always works to ensure water is available for future generations, so we are committed to conserving our most precious resource. With small changes in water use habits, you can be a part of this commitment while lowering your water bill.
