Dear Customer:

Recently California-American Water Company discovered that your water meter had been tampered with. Tampering with your water meter is a violation of the Company's tariff. Any further occurrence will result in legal action against you and your water service will be stopped.

If we stop your service at the main, you must pay all costs to reconnect your water service.

We replaced the meter and sealed the meter. This will be checked by our service person and meter readers to make sure the seal is not broken.

Sincerely,

Customer Service
