ADVICE LETTER NO. 1285

TO THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

California-American Water Company (California American Water) (U210W) hereby submits for review this advice letter including the following tariff sheets applicable to its Ventura County District which are attached hereto:

<u>C.P.U.C. Sheet No.</u>	<u>Title of Sheet</u>	<u>Canceling Sheet No.</u>

XXXX-W	TABLE OF CONTENTS Page 3	XXXX-W

PURPOSE

The purpose of this advice letter filing is to request recovery of the 2019 WRAM & MCBA balances. This request is in compliance with authorizations of the California Public Utilities Commission as detailed in D.08-11-023, D.12-04-048, D.13-07-041 and D.18-12-021.

On March 24, 2020 California American Water requested a two-week extension to file the Tier 1 annual request for amortization for net WRAM/MCBA balances. On April 2, 2020 the Commission granted this extension request.

BACKGROUND

On November 6, 2008, the Commission issued Ordering Paragraph 1 in D.08-11-023 which adopted a settlement agreement between California American Water and the Division of Ratepayer Advocates ("DRA") to establish a Pilot Program for a conservation rate structure in the Ventura District;

The June 28, 2007 settlement for the Coronado and Village districts, attached to Appendix A, is adopted and the motion to reduce the comment period is granted.

As part of the settlement, California American Water was to establish a WRAM as outlined below from pages 5 and 6 of the agreement.

Decoupling for California American Water will be accomplished through the following mechanisms:

- 1. A Water Revenue Adjustment Mechanism (WRAM) for the Coronado and Village districts.*
- 2. This decoupling mechanism, along with California American Water's Incremental Cost Balancing Accounts (ICBA)¹, will ensure recovery of the adopted fixed costs recovered through the quantity charge, and the actual variable costs for purchased power, purchased water, and pump taxes. The fixed costs not included in these accounts will be recovered through the service charge, which is a monthly charge that customers pay regardless of consumption.*
- 3. In accordance with established Commission practice, the WRAM account will accrue interest at the 90-day commercial paper rate.*

The WRAM will track the difference between the total quantity charge revenues authorized by the Commission ("Total Adopted Quantity Revenues"), and the total revenues actually recovered through the quantity charge based on actual sales ("Total Actual Quantity Revenues"), excluding:

- 1. Revenue from Private Fire Protection Service and;*
- 2. Revenue from the "Other" class of general metered customers.*

California American Water implemented the Pilot Program on February 1, 2009 via Advice Letter 717-A.

Historically, these types of advice letters were submitted by April 30th each year per the settlement agreement adopted in D.08-11-023. On July 25, 2013, modifications to the process were agreed to in D.13-07-041 as part of a settlement in California American Water's 2010 General Rate Case ("GRC") proceeding;

The parties agree that California American Water would use the same amortization schedules and procedures that were established for other Class A water utilities in D.12-04-048 for the WRAM/MCBA in all districts. This includes:

- 1. Amortization of net WRAM/MCBA balances at or above 2% of the last authorized revenue requirement, as described in Ordering Paragraph 2;*
- 2. The process to not initiate the cap until 2015, which is the first test year of the GRC to be filed July 1, 2013, as discussed in Ordering Paragraph 3;...*
- 3. A vigorous review of the WRAM/MCBA as well as sales forecasting to be conducted in the next GRC (Test Year 2015), as discussed in Ordering Paragraph 3;*
- 4. California American Water will submit its annual request for amortization of net WRAM/MCBA balances by a Tier 1 advice letter on or before March 31, as described in Ordering Paragraph 5;*

The Modified Cost Balancing Account (MCBA) replaced the ICBA through the issuance of D.12-06-016.

5. *California American cannot include any additional type or category of cost in their Tier 1 Advice Letters that was not included in their Annual Report as described in Ordering Paragraph 9;*
6. *California American Water will separate the WRAM/MCBA surcharges on customer bills if it is capable of doing so with its new billing system, as discussed for other utilities in Ordering Paragraph 10.*

Additional criteria on the WRAM amortization process were outlined in D.12-04-048 as follows.

Conclusions of Law

7. *It is reasonable to require that net WRAM/MCBA over-collections be amortized through a surcredit on a customer's service charges and that all under-collections be amortized through a surcharge on the volumetric rate.*
8. *It is reasonable to change the deadline for applicants to submit their annual WRAM/MCBA report from March 31st to the previous November 30th, and to include nine months of recorded data through September 30th in the report.*

Ordering Paragraphs

1. *We adopt the amortization schedule set forth in Appendix A with a cap on total net Water Revenue Adjustment Mechanism/Modified Cost Balancing Account (WRAM/MCBA) surcharges of 10% of the last authorized revenue requirement...WRAM balances incurred prior to the first test year referenced above continue to be amortized under the adopted amortization schedule without being subject to the surcharge cap.*

In addition, D.18-12-021 increases the cap on amortization of the WRAM/MCBA balances:

Ordering Paragraph

151. *The cap on amortization of WRAM/MCBA balances should not be eliminated but should be increased to 15% of the last authorized revenue requirement for each of California American Water's districts.*

California American Water submitted its annual report with DWA on 11/30/2019. The report contained recorded balances January 1 through October 31, 2019 and forecasted balances for the period November 1 through December 31, 2019.

REQUEST

The balances for the WRAM and MCBA are summarized in the table below.

TABLE 3: Recovery of WRAMMCBA Balances				
Description	WRAMMCBA Over/(Under) Collection	Cumulative Interest Earned/ Accrued	Cumulative Surcharge Collections	Balance
AUTHORIZED PRIOR BALANCE REMAINING AT 12/31/2019	(11,305,105)	(222,505.81)	\$3,176,237	(8,351,374)
ESTIMATED BALANCE NOT YET APPROVED FOR YEAR 2019	(\$5,571,404)	(\$45,217)	\$0	(\$5,616,621)

2019 Adopted Revenue				\$37,706,654
2019 Balance % of Revenue				14.9%

Based on the above balance and the adopted amortization schedule per D.12-04-048 Appendix A, California American Water requests a volumetric surcharge of \$0.1121 per 100 gallons over a 30-month period be added to the Company's tariffs.

SPECIAL CONDITIONS

General Items

1. Qualifying low-income customers can receive a discount on their bill. Customers must apply with the Company for acceptance into the low-income program. For additional details, please see Tariff Schedule CA-LIRA.
2. Any customer paying for service at a premise where a Residential Fire Sprinkler System (R.F.P.S.) is required/requested to be installed by local fire and building codes shall be allowed to have their monthly service charge modified in accordance with the monthly costs for R.F.P.S. service charges. Provided, however, that the R.F.P.S. rate has been requested by the customer and verified by the Company that the smaller size of meter would be large enough to provide adequate service for the property in absence of the additional demand necessary to supply water to the sprinkler system. The R.F.P.S. will not be considered a fire service by the Company, but as an oversized general metered service. As such the rules and conditions of service for general metered service shall apply.

Fees and Surcharges

1. All bills are subject to the reimbursement fee set forth in Schedule No. UF.

5. Per Advice Letter 1230-B, the under- collected balance in the Ventura County District Consolidated Expense Balancing Account (CEBA) will be recovered through a quantity based surcharge of \$0.0129 per 100 gallons over 12 months effective May 1, 2019. The total amount will be recovered from all classes of customers.
6. Per Advice Letter 1243, a surcharge is applied to each bill to offset the increase in purchased water cost imposed by the Calleguas Municipal Water District. This increase results in a needed revenue increase of \$1,831,108 or 4.80%. The surcharge of \$0.0363 per 100 gallons is added to the quantity rate effective May 11, 2019.
7. A surcharge is included in each bill to recover the net under-collection in the Water Revenue Adjustment Mechanism (WRAM) and Modified Cost Balancing Account (MCBA). For the period ending December 31, 2019, the net under-collection totals \$13,967,994 including interest. The surcharge of \$0.1121 per 100 gallons is set to recover the under-collection at a rate equal to 15% of the authorized revenue requirement as approved by D.18-12-021.
